

CPS Version 2.0x and Radio Version 3.18 and later

This distribution is the latest from **iRadio** for the **DM-UV4R radio**.

Before you install it, please read the note below.

Important Notes

- **CPS v2.0x is not compatible** with current configurations in your radio.
 - By uploading this version to your radio, **you will erase your current configuration**.
 - You will need to create a new configuration from **CSV files exported from your radio**.
 - We are providing a **channel CSV file conversion tool** to convert from **CPS 1.21 - 1.24 channel CSV files** to **2.0x channel CSV files**.
 - Please read the [README.md](#) file in the distribution before proceeding with upgrades.
-

We are truly sorry for the inconvenience.

This change was unavoidable.

If you run into any issues with the converter, please contact us at:
